

We Honor Veterans

Hospice of the Red River Valley participates in the We Honor Veterans program that focuses on veteran-specific programs for end-of-life care.

The program is a partnership between the National Hospice and Palliative Care Organization (NHPCO) and the Department of Veterans Affairs (VA) to empower hospice organizations to meet the unique needs of dying veterans and their families.

Honoring our nation's veterans includes not only acknowledging their service and sacrifice, but also supporting them throughout their entire lives. Hospice of the Red River Valley has had the honor of providing care for thousands of veterans since our founding in 1981.

"As we arise each morning, let us determine to respond with more love and kindness to whatever might come our way."

— Thomas S. Monson
